HOW WE BUILD THE FUTURE

It is with great honor we welcome you this evening to celebrate Zonta 100 years anniversary.

To celebrate this special milestone the theme this evening is all about future research on gender equality and the paradigm shift we are experiencing. We are therefore proud to present 3 Zontians who will share their views and documented facts on how we build the future.

We wish you a wonderful evening in the heart of Copenhagen and in the heartfelt good company of Zontian sisters.

Program moderated by Cecilie Hother, journalist
